

The project "The history of the school"

Made by the eighth form's pupil
of the Novobureisky school №3
Darya Nebesnaya.
Teacher: O.V. Ternovaya

Everybody wants to live in the best place of the world, to be proud of his native land. But where is the welfare state, the area where everyone lives happily? Before you start to look for it keep in mind that it may be your own town.

A country is developed and prosperous if intelligent and educated people live there. Everyone knows its citizens who are the main wealth of the state. The man's character with all merits and demerits is formed in his childhood. Every child is educated and develops his natural abilities during his school years. Children spend much time at school so school plays the great role in the life of each person and in area at whole.

That's why our project is called:

The history of the school as the source of the glory of our district

«We are going to a new school»

The history of our school started in autumn's day of 1970, when the doors of school were opened for the first pupils. This year we have celebrated the 41 anniversary of school's birthday.

The first gradutors of 1970 –1971

The first teachers of the school

For these years 5 talented and brainy persons have led school. Each

of them made their contribution in the development of traditions and popularizing of the school.

The first headmasters were
Dorokhova
V.N. and
Voytsekhovich
Z.M.

Dorokhova V.N. founded the firm and friendly group of creative teachers.

Thanks to Voytsekhovich Z.M. all the best things in the school transformed into traditions.

They were active, hardworking and kind-hearted women.

The 90s years were very hard time for the whole country. There were many problems in the society.

It was the time when Ryazanova E.I. became the third headmaster. She did everything possible to get over all difficulties and keep the best achievements of education. That time school was the small island of the stability.

Sedykh S.A. has led the school for only one year. But it was just that may be called the beginning of new life of education, creation of new technologies and methods in school.

Today the head of the school is Kosachev S.D. His main principle is education of a healthy pupil. Thanks of development of physical education he gets success.

Throughout 40 years hundreds of pupils graduated from school. Among them 61 schoolchildren were awarded with gold and silver medals.

You can read their names in the school “Book of honour”.

1. Smolyachenko Olga (1972)
2. Efimova Natalya (1993)
3. Dudar Nataliya (1994)
4. Koshevaya Polina (1994)

61. Shlyakhova Ekaterina
(2011)

Now former pupils are respected people who became doctors, lawyers, military men, farmers, workers, economists, militiamen, sellers, nurses and so on.

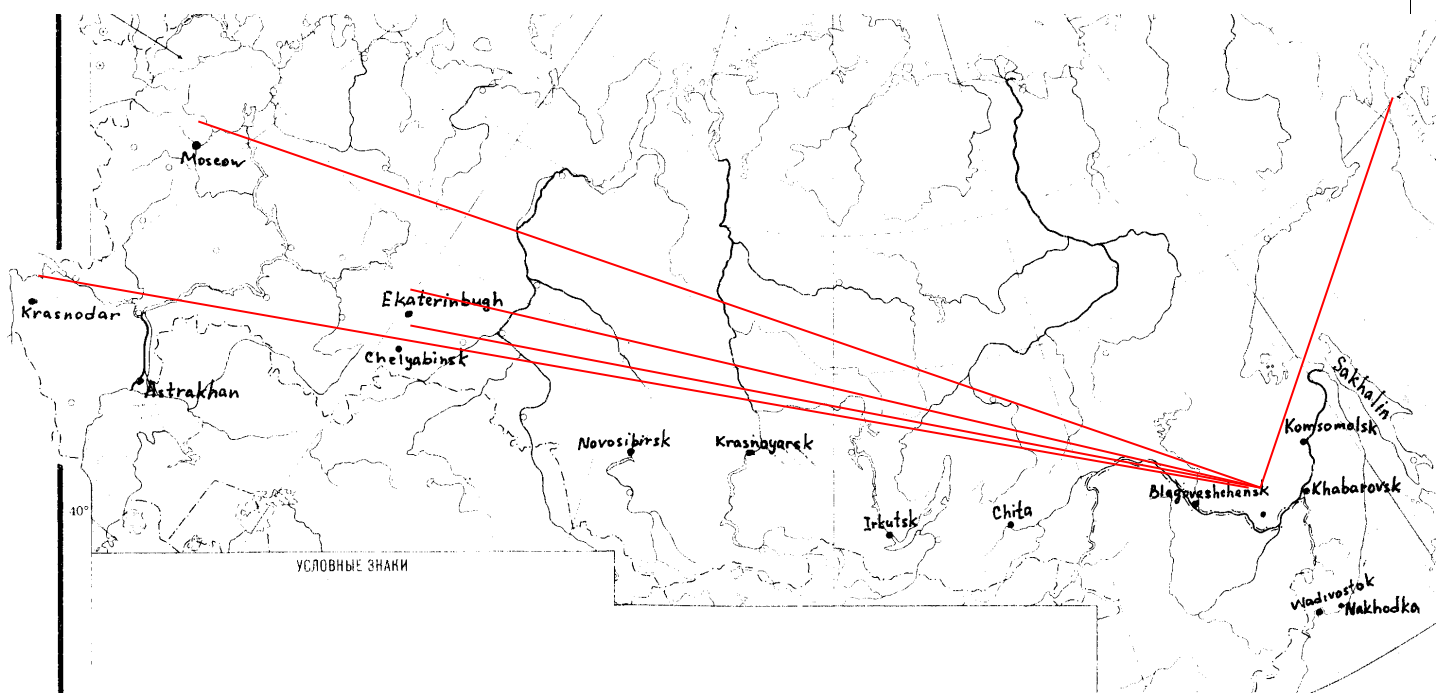

12 of them work at our school as teachers.

They are:

Kosachev SD, Kantemirova Yu V, Mendeleva ON, Rogudeeva LA, Sorokina OA, Panenkova MN, Belavina TB, Bozhenova VA,

Loskutnikova IG, ~~Nechaeva TN~~, Zyryanova TV, Maslukova EV,

Loskutnikova OA, Bystrov EV, Yudina EI, ~~Gumanyuk Yu V~~

Geography of graduates' addresses is very wide. You can meet them in Blagoveshchensk, Vladivostok, Kamchatka, Chita, the Ukraine, the Caucasus, Chelyabinsk, Sakhalin, Khabarovsk, Moscow, Novosibirsk, Nakhodka, Astrakhan, Ekaterinburg, and Komsomolsk –upon – Amur, Kamchatka and many others.

The gradulators may be proud of the modern pupils. They are constant participants of the different olympiads. Every year the most brainy girls and boys come to Blagoveshchensk to show their knowledge. Many of them get success.

But the greatest achievement of the school was the journey of Nastya Tarasenko and her teacher Krasnikova T.A. in Vologda in 2003 where the Russian pupils' Olympiad of Russian language took place.

The participants of the Russian pupils' olympiad

The chairman of the jury L.I. Skvortsov and Nastya Tarasenko
(2004)

In 2009 Mariya Loskutnikova became a participant of students' conference "The Youth, Science, Culture" in Novosibirsk.

Young people from Ural, Siberia and Far East represented their reports in different sciences. Then they have a chance to meet with great scientists and get some advice about their work.

The best students were awarded. Among them Masha was.

There Masha met many interesting people and made a lot of friends.

There are many ways to make school life interesting and unforgettable.

One of them is the creative work. It's easy to find talented children at school.

That's why since the first year of the school's history our dancers and singers had great success in our settlement.

The first musical leader was Vasiliy Ivanovich Simochenko who created the first musical activities.

Thanks to his work the school singers Simochenko V, Dorokhova L, Kostyreva G, Raevskiy V, Tactarov V, Dyachina S, Gurskaya L took an active part in different kinds of concerts.

At the beginning of the 70s the first dancing group and the choir of pupils and teachers were organized.

Dancing activity was connected with the name of Khudoleeva Valentina Alekseevna.

The inhabitants of Novobureisky remember the school-dancing group of Krasnikova T.A., because some of them enjoyed their performances, others danced in this group.

Among them there are Bogomyakov M, Kopytkov O, Karpenko S, Loskutnikov S, Prusakov V, Kucheryavyi I, Nebesnyi ZH, Chernova O, Aleshko O, Medvedeva E, Sedunova T, Kuzmina T and others.

Nobody from this group became a professional dancer but it was a wonderful school of friendship.

The former dancer Chernova Oksana (1986) says:

“We were the true friends who stood each other.
We were always there when someone was in trouble.
Our coach was our second mother.
She helped us with good advice and cheered us up.
It was fun to take part in different concerts and
competitions.
Now we are grown-ups
but it’s enjoyable to get together and
remember merry days of childhood.”

In 80s the pupil of Simochenko V.I. Zyryanova T.V continued her teacher's activity. Her schoolchildren often take part in concerts and competitions on the stages of Novobureisky and Blagoveshchensk.

In 2007 year Burymenko A and Kolegova M got great success in the regional musical festival.

They were awarded with diplomas and presents.

The spectators of Blagoveshchensk enjoyed the performances of our musicians.

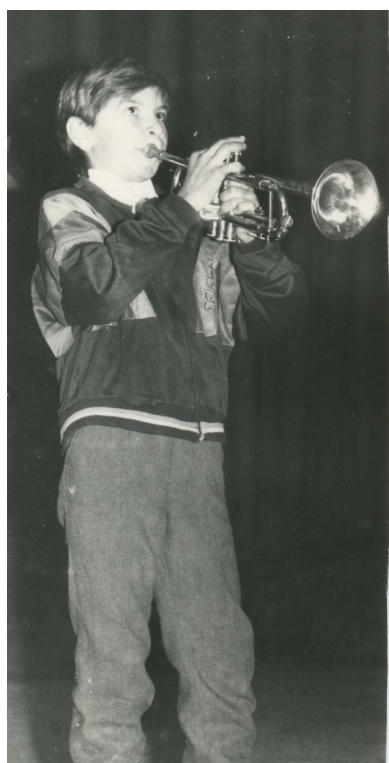

Bogdanov Misha (1978)

The most popular instrument of teenagers is the guitar. The history of school guitar songs includes the names of Bogdanov M, Karavanov S, Apalkov S, Vereshchagin R, Sapukova N, Gordeeva S, Krinitsyna S, Sokolovskaya O, Pozdnyakov S, Guber V and many others.

School always has close partnership with the musical school. Many boys and girls play in orchestra that is led by Pirogov V.F.

Sorvin S (1998), Van-Din-Io A (2000), Guk S (2008), Burymenko A (2008) became the winners of the regional musical festivals.

Dilizhan N (2007) entered Moscow military musical university. He studies well and a small settlement far from the capital became well known as a place of talented teenagers.

Some young singers of the school such as Shchukina Tanya (1980),

Golovachev Sasha (1984), Baranov Zhenya (1976),

Barbetov Sergey (1984),

Kremnev Oleg (1978)

have connected their lives with music forever.

17

Emelyanova Nina was always keen on theatre.

So she became the leader and one of the most active actors of the district's theatre.

Musical activity of schoolchildren is not only special contests, but it's usually charity concerts. That's why the performances in military detachment and kindergartens are traditional.

18

In the 90s the most popular activity of young persons was KVN. Almost every teenager was mad about it. Kovchur B, Smirnov P, Medvedev M, Simochenko S, Vysotskiy T, Zhovner M, Mikhaylov S, Vandyshev K, Supryaga A, Fakhrov A, Medvedev M, Chernyi D, Petrova A starred on the stage. The school team “Klass” won the first prices of the district’s festivals three times. Two times the team took part in the regional festivals of KVN. More than that “Klass” traveled to ”Ocean” in Vladivostok. It was possible not only thanks to children but to teachers Kirsanova O.F., Sorokina O.A., Vandysheva E.V., Podobed I.G., Zyryanova T.V.

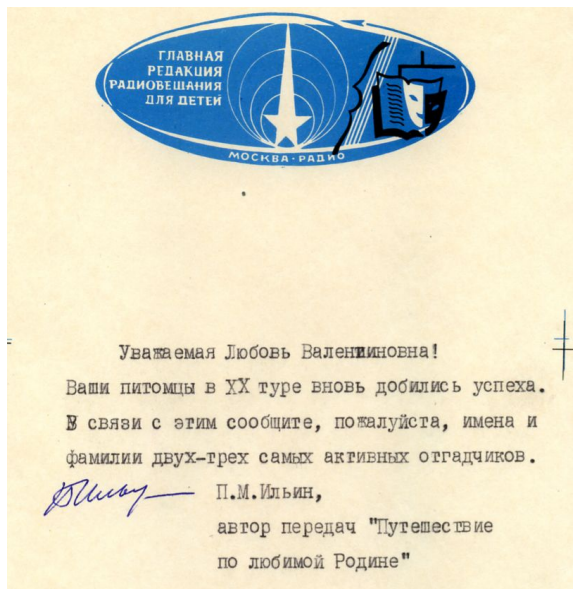

Today new pupils organize new teams. We hope the success and good luck wait for them.

Patriotism starts with the love to the native land. To love means to know. So since the first years schoolchildren have studied the geography of their Motherland.

From 1972 to 1979 the pupils of Kornilova L.V. took part in the contest “The trip around our Fatherland” that was hold by the State committee of radio and television of the USSR. They have been the winners for more than six times.

The best researchers were Khailova L, Dorokhova O, Varavenko Yu, Chumakov B, Lyskova O.

It was the traveling by correspondence.

However boys and girls learnt their country not only by using books and maps.

Every year the group of schoolchildren visit the most beautiful places of Russia such as Moscow, St. Peterburgh, the cities of the “Golden ring”, Khabarovsk, the lake Baikal, Volgograd, Vladivostok and others.

At the beginning of 70s Raevskaya A.A. and her pupils collected the rich materials about the history and geography of Priamurye. The most active participants of this work made speeches on the special

conference “My Priamurye is the part of great Russia”. They were awarded with a trip to Moscow. The modern pupils use these materials at their lessons.

Traditional things were meetings with outstanding people.

They were the Great Patriotic war's hero Suvorov;

the teachers Teplova M.A. and Shpakova N.G.; the respected persons Ryzhov B.I., Morozov N.F., Martsikevich I.G.; the well-known builder Duritski D.S.;

the

Amur poets Sukhodjlski V.A., Kremnev G.P

Since the first days of school boys and girls do everything to make our town more attractive. Every year they clean up the streets, help planting trees; take care about monuments.

The most favourite activity of each class was hiking. The result of the wish to know and see something new, the teenagers' love to adventures was the organization of the tourist club "Iskatel" at the school.

It started in 1985 when the first hikes toward the monument in Kiselyevo and in Talakan were organized.

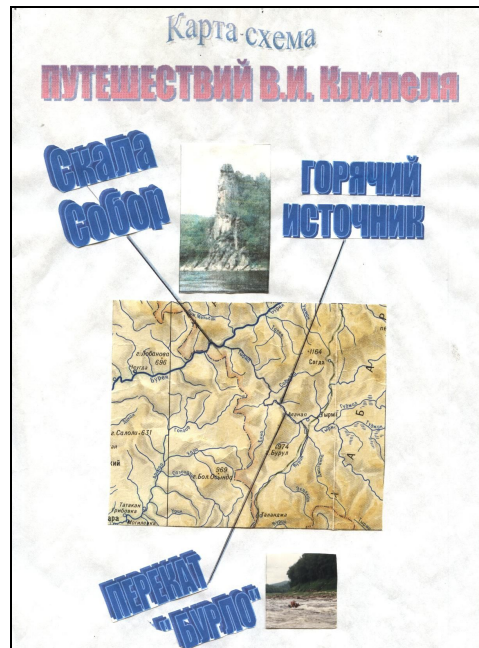

Since that time 700 pupils have been taking part in the club's work. Its creation is connected with the names of Krasnikova T.A. and Krasnikov V.V. who are the permanent leaders of this club. Its members travel around all over the region. In 1990 they cycled along the road to Uspenovka – Tambovka – Ivanovka. It was in honour of the Victory in the Great Patriotic war.

Since 1991 the teachers and the pupils have been boating by the rivers the Bureya, the Tyrma, the Tuyun.

Teenagers don't only learn all the skills needed to survive in difficult situations, but they meet people, study the history and geography of the research work. They read books; learn biography of famous people who were the pioneers of our land. One of them was Klipel V.I.

The result of such work is the publication of the special issues of school magazine "Bureya".

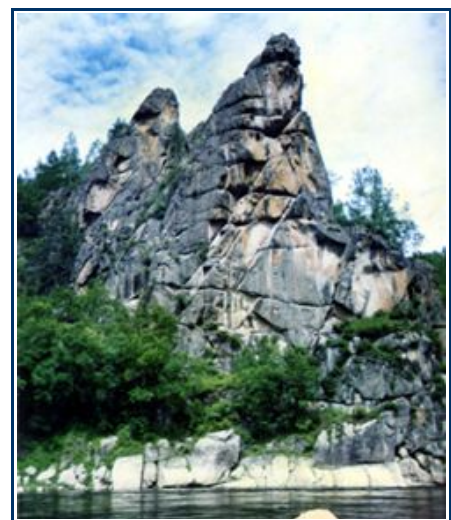

Children make new friends from many districts of our region and Khabarovsk one.

The club's collection includes many pictures of the places that nobody will be able to see because of building of HPS. They have disappeared under the water.

The Tyrma, the rock "Soldiers"
"Cathedral"

The Bureya, the rock

The excellent tradition is taking part in all kinds of sport competition.

There were not only victories, but defeats too. However people usually forget all failures, the success is kept in their memory forever.

One of the first winners was Sergei Senin, who shot and skied best of all.

The sport life of schoolchildren was always successful. The first places in such competition as skiing, running, shooting were traditional.

In the middle of the 70s a basketball team was created. Its coach was Dorokhov Viktor Nikolaevich. Since that almost every pupil of the school has played time basketball and has joined the district sport school.

Some years later Novik Vladimir organized the hockey team. The most successful players of his team were Malyshenkov I, Lyadskii V, Boiko A, Bubnov A and others. This team won the regional hockey cup and took part in the cup of Far East in Khabarovsk. For more than 20 years 5 generations of hockey players were educated. They had different coaches and characters but they did all possible to win and to be honour of their school.

The second team included such persons as Vysotski S, Oleshko A, Zharikov Zh, Loskutnikov V, Bozhal A, Kosachev S, Voitsekhovich A, Litvinenko A, Ramis S, Frolov A, Ermolin S.

The names of Malyshenkov V, Loskutnikovs E and Yu, Pavlenko A, Los S, Pivovarchik A, Krasnikov A, Shchetinnik Yu are connected with the third team. Its coach was Malyshenkov Igor Valentinovich who played in the first team.

Later Krasnikov Vladimir Viktorovich became the head of school hockey. Medvedev S, Vysotskii Zh, Stepanuk K, Dishchenko K, Kuznetsov A played in the fourth team.

Krasnikov A, Bozhal A, Medvedev M, Kudinov S, Nemenko S, Aleynikov S, Sadovnikov S are players of the fifth one.

As you can see the love to hockey can't stop. It is passed from the fathers to their sons. The game becomes the family's one.

Because graduating from school doesn't mean breaking from hockey. The young people played in the grown-ups' team then become fans of this game forever. Their families like

fathers spend much time playing and watching hockey. That's why nowadays you have an opportunity to enjoy the wonderful hockey of the last team's players.

Sport achievements of schoolchildren in the regional competitions of athletics caused their participations in Russian competitions.

In 80s school team went to the pioneer camp “Orlyonok” two times. In 1987 their trip was very successful. 52 teams from different regions of the Soviet Union came there. Our team won the 20th place among them. Two sportsmen were awarded with bronze medals. The best participants were Boiko I, Gumanuk L, Sergeev, Kuznetsov, Kulibaba I.

This tradition is continued by modern teens. At the beginning of the 21st century school team of athletes went to President’s competition of Russia in Adler three times. Their coaches Krasnikov VV and Zykin VN are proud of their boys and girls. Schoolchildren didn’t only compete but they swam, went sightseeing, had sunbathing and met new friends. The champions of the teams were tennis players Mukhortov Andrey and Gubskaya Natasha, who got medals. One of the best sport girls was Bezruk Lera.

2011 has become more successful for our sportsmen.

In summer the President’s competitions have taken place in the children’s camp “Ocean” in Vladivostok. Teams from Ural, Siberia and Far East have come to try their chance. As usual our team was among them. For twenty days teenagers have been competing in field and track athletics.

As a result the team of our school has won the second place and has got thirty three medals, six prizes and special sports certificates. It was very pleasant to hear about great success of the Teacher Stennikova NN and her Students. They have worked hard, had had much fun and have made many friends.

School team “Spasatel” is known and respected in the regional. Its appearing is connected with the names of Kuznetsov Sergei Ivanovich and Krasnikov Vladimir Viktorovich. Now they are Krasnikov VV and Bystrov Evgenii Viktorovich. Every year teens show the excellent lifeguards’ skills of first aid, emergency action plans, water and forest safety, knowledge of maps and hand signals. The best young lifeguard

Reshetnikov Tolya has got the suggestion to enter the special institute to be a professional.

The names of Pozdnyakov S,

Makarova K,

Sakov S,

Bogdanova L,

Mishkeleeva V,

Putilov D,

Burymenko A

and many others are written in school sport chronicle forever.

29
29

In 1978 Kolomeets Elena Petrovna created the club of international friendship.

The activity of the club consisted of two ways. The first one was finding pen friends from different countries.

Pupils got letters from Germany, Bulgaria, Czechoslovakia, Cuba, and Japan. Boys and girls learnt writing letters correctly.

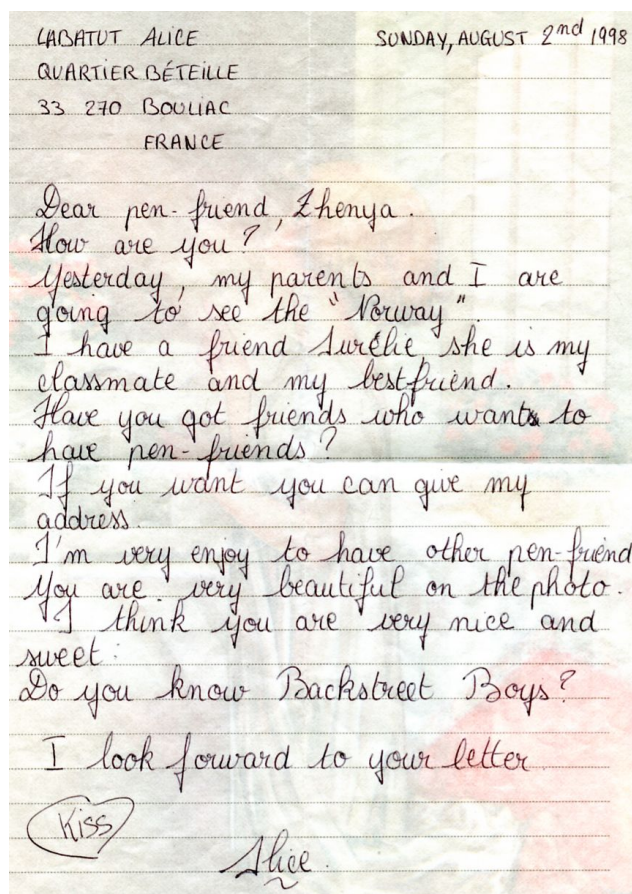

They wrote about their families, friends, hobbies, Russian customs

and traditions.

In 90s the English department of this activity appeared. Kirsanova Olga Fyodorovna was its head.

Children became pen friends with the English-speaking children from many European countries such as Italy, Spain, France and others.

It was exciting to get parcels with souvenirs, books and photos. More than that it was enjoyable to send different things to make new friends.

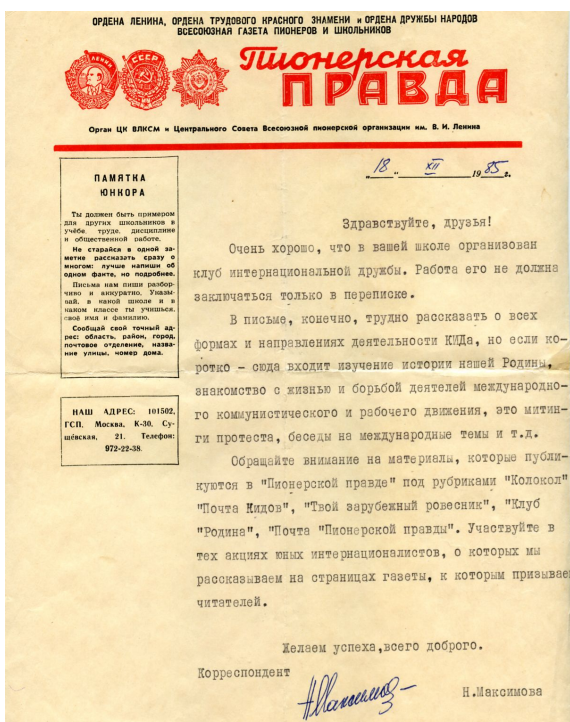

The second way of the clubs activity was organizing parties, meetings and concerts connected with foreigners' traditions and holidays. Children tried to do all possible they can to keep peace in the world. For example the 8th of February was celebrated as the day of young antifascist. The club suggested holding special sales.

Boys and girls made many beautiful handmade things for these sales. Money which schoolchildren earned was sent to the Fund of Peace.

The club's members didn't write only personal letters, but the letters were sent in the clubs of many schools of different Soviet Republics. The most popular children's newspaper "Pionerskaya Pravda" gave advices to improve the club's activity.

Today our school has many creative teachers and talented pupils. 5 teachers got the special price as the best teachers of Russia. The school won the price thanks to the programme of National Development of Education.

So our chronicle isn't finished. We hope new success and records wait for us.

You are able to read about the most interesting things and great achievements in school magazine “Bureya” and newspaper “Pereminka”.

But we can make conclusion there is no one thing in the district, which can do without pupils of our school. Thanks to teachers and schoolchildren many people know that in the Far East there is a small settlement Novobureisky where excellent persons live, work and do all the best to make our life better and more pleasant.
