Project

« Education in Nurlat »

**The work was done by
the pupil of the 11 B from
Singatullina Alsu
Under the leadership of
Fassaxova G.R.**

Education in Nurlat.

Education in Nurlat consist of three basic levels : elementary, secondary and higher education. Our school system is determined by the All-Russia Education Law and is supervised and controlled by the Russia and Tatarstan's Ministries of Education.

Personal education.

There is a wide of kindergartens in Nurlat. They have different services to give children all-round development. Kindergartens can afford the most necessary things such as toys, stationary, elementary sports facilities. Each family can choose a kindergarten to their liking. There are kindergartens where much attention is paid to physical development of kids so that to improve their health. For example "Belochka", "Solnyshko".

Some of them such as "Rosinka", "Rodnichok" specialize in a foreign language, or some of them in a Tatar language such as kindergarten "Alsoy". Anyway learning Tatar is compulsory in all Nurlat's kindergartens.

Children from 2 to 6 attend kindergartens every day, except Saturdays. Kids spend the whole day there studying and playing outdoor games, dancing and singing.

This preschool education aims to give children useful experiences which will prepare them for elementary school.

School education in Nurlat.

Everybody has a right for secondary education which is free of charge. Most pupils from 7 to 17 go to a state comprehensive school. There are several comprehensive schools in our town. There are no selective schools, lyceums and private schools in our town. All schools in Nurlat are comprehensive school.

Some of them are old, such as number 1 and number 2.

The school number 1 was built 46 years ago. The school number 2 is older. It was the hospital for the wounded during the Great Patriotic War II. But in spite of it they consider that these schools are the best in our town. Because the best teachers work here and these schools present the best results of different competitions.

There are some new schools in our town, for example number 10 and 9.

The school number 10 is a called “gymnasium”. It specializes in English and Tatar languages.

The buildings of these schools are modern and comfortable, rigging by the modern equipment.

As compared with other schools there is only one shift at these schools. In others pupils study in two shifts.

Each school in Nurlat offers a wide range of extra curricular activities, wich include team sports, art programmes, science societies. Pupils are taught the subjects under the All-Russia National Curriculum. These are Russia, Russia literature, Maths, Science, History, Geography, Art and foreign languages, such as English, German and French. Which are compulsory. Besides, all schoolchildren learn Tatar.

I want to tell some words about my school. I'm a pupil of the eleventh form. My school is number 1.

It's not very large. There is a schoolyard around it and a sports ground behind the school.

Our school has two floors. There is a workshop on the ground floor. There are different kinds of tools machines there.

There is a room for manual work for girls. It's on the first floor.

There are two computer classes ,where pupils can make reports and prepare their homework there. The Internet access is also available for all pupils for free.

If you enter the school and go to the left you'll see a canteen, where pupils and teachers have their breakfast and lunch. On the ground floor there is also a medical room and a gym and a school hall, where we organize concerts and parties when we celebrate our holidays. On the first floor you can find the teachers room ,the school library. The school library is rather big. Pupils get textbooks for free in the library.

Also there are classrooms of Russian, Literature, Biology, English, Geography on the first floor.

All classrooms are very cozy. There are a lot of flowers and posters on the walls.

I really like my school and I am happy to study in it.
